KAUTTU & CO

★ FINLAND COMMERCIAL LAW FIRM OF THE YEAR

Kauttu & Co is a business law firm, helping businesses to navigate the Nordic corporate landscape. We assist domestic companies with local and overseas matters, while also helping foreign companies to do business and invest in Finland and the Nordic region.

We assist with commercial transactions and international operations in a diverse collection of industries including technology, manufacturing, heavy industry, energy, transportation, wholesale business, and banking. We provide corporate law services to our clients and advise them on corporate governance issues. Our lawyers counsel industry leaders on competition issues relating to both European Community and national law. We help high-tech companies in developing tomorrow's technology and managing risks arising from intellectual property issues. We represent corporate clients, institutional investors, individuals and others, in acquisitions and other transactions involving the purchase or sale of businesses, as well as in related financing and taxation matters. Our attorneys represent developers and contractors in the purchase and development of real estate, the construction and leasing of facilities, and the financing of these activities.

Being a boutique law firm, we aim to assist clients by delivering the quality of professional service expected from large firms, but with greater flexibility, efficiency and responsiveness. We fully realize that in order to be

effective and to offer real value, we must be able to react to your legal needs and to make ourselves available whenever required. We pay special attention to getting to know and understand your businesses and operations rather than simply pointing out problems.

We have extensive experience in serving the business community regarding various aspects of business law in an efficient and cost-effective manner. As an example of our expertise, Kauttu & Co was the winner of the Commercial Law Firm of the year Finland award by ACQ Law Awards in 2013. Our lawyers are highly ranked experts in their fields of practice, with multiple honorees in various areas of business law. Beyond having distinguished themselves in practice, our lawyers are widely recognized speakers and writers. They also are active participants in professional organizations, representing their specialized fields of expertise.

Kauttu & Co is an exclusive member of the International Referral Group (IR); the largest exclusive group of advisory firms in the world. IR has over 750 members in more than 120 countries, and expertise in over 70 sectors and practice areas. Beyond this, we have established direct professional relationships with law firms across Europe, in North America, and in Asia.
